EDUCATION

SASTRA Deemed to be University | Thanjavur, India

Oct 2022 – May 2026

Bachelor of Technology in Computer Science & Engineering (IoT and Automation)

PROJECTS

Hallucination-Proof Research Assistant (RAG + Fact Checker) | [Github](#)

April 2026

Tech Stack: Python, ChromaDB, Sentence-Transformers, Ollama, Streamlit, PyPDF

- Built **HalluciNet**, a RAG pipeline with **dual-LLM hallucination** detection over user-uploaded PDFs using **ChromaDB vector search** and **Groq API**.
- Implemented **atomic claim verification** where a **secondary LLM fact-checks** each generated claim against retrieved source chunks independently.
- Delivered per-claim verdicts and a quantified **Trust Score**; deployed end-to-end on **Render** using **Flask** and **sentence-transformers**.

FashionSense AI (Multilingual Review Intelligence Platform) | [Live Link](#)

Jul 2025 - Nov 2025

Tech Stack: AWS (S3, Translate, Comprehend, EC2, Bedrock), FastAPI

- Built a **multilingual AWS pipeline** (S3, Translate, Comprehend, Bedrock Nova) processing fashion reviews across 5 Indian languages with 96% API call reduction via batching, delivering **5-dimension SKU scoring** and **return risk prediction**.
- Generated **LLM-powered executive summaries** and supplier correction notes at ₹0.0014/review, enabling actionable product intelligence for direct-to-consumer (D2C) fashion brands at scale.

Dual Stream Deepfake Detection Network | [Link](#)

Jan 2026 - May 2026

Tech Stack: Python, TensorFlow/Keras, OpenCV, NumPy, Matplotlib

- Designed **DFCA-Net**, a **dual-stream CNN** using **MobileNetV2** and a **DCT frequency branch** with **bidirectional cross-attention** for deepfake face detection.
- Trained on **140K real and fake faces** using **three-phase progressive** learning on **NVIDIA DGX A100 GPUs** with mixed-precision training.
- Surpassed **state-of-the-art baselines** achieving **99%+ accuracy** and **near-perfect AUC** on a held-out **5,000-image unseen test set**.

AI-Powered Food Ordering Assistant | [Github](#)

Dec 2025

Tech Stack: n8n, Groq LLM, WhatsApp Business API, Google Sheets API

- Built an **event-driven WhatsApp automation system** using **n8n webhooks** and **Groq LLM** for real-time **AI intent detection** context-aware response generation.
- Integrated **Google Sheets** for **dynamic FAQ** and **menu retrieval** with automated order structuring and logging - no hardcoded decision trees.
- Designed for scale, supporting concurrent conversations with instant responses via **AI-driven workflow orchestration**.

WORK EXPERIENCE

Agentic AI Engineering Intern | [Glacis](#)

March 2025 - Present

- Built and automated **GTM (Go-To-Market)** workflows using **n8n** for inbound and outbound **marketing operations**.
- Developed **AI-driven marketing automation** pipelines to streamline lead **capture, enrichment, segmentation**, and **outreach** processes.
- Integrated **APIs, webhooks, CRM tools**, and external platforms to **automate campaign execution** and customer **engagement workflows**.

Oracle APEX Developer Intern | [Virran Tech Solutions Pvt Ltd.](#)

June 2025 – July 2025

- Built a **12-module Leave Management System** using **Oracle APEX (auth, dashboards, workflows, reports)** in 4 weeks, streamlining **end-to-end HR operations**.
- Automated **leave balance calculations** and approvals using **PL/SQL**, reducing manual effort, processing time, and human errors and implemented **RBAC** and **interactive dashboards** for secure, real-time visibility of **employee leave data**.

SKILLS

- Programming Languages:** C, C++, Python
- Web Development:** HTML, CSS, JavaScript
- Database Management:** MySQL, PL/SQL
- Tools & Platforms:** Git, GitHub, Postman, Firebase, Figma, Oracle APEX, AWS (S3, EC2, Bedrock, Translate, Comprehend)
- AI Automation:** n8n, Webhooks, API Integrations, AI Agents, Workflow Orchestration
- Core Concepts:** Database Management Systems (DBMS), Operating Systems (OS), Computer Networks (CN), Data Structures (DSA), OOPs

ACHIEVEMENTS AND CERTIFICATIONS

- Top 15 Finalist –Amazon AI Hackathon** | **OCI AI Foundations Associate (Oracle)** | **Generative & Responsible AI (Google)**
